

SIBLINGS WORKING GROUP

Building inclusive communities

WORKING GROUP MISSION STATEMENT

The Sibling Working Group seeks to better understand sibling advocacy across the world and within the Inclusion International network.

Through our work, we will increase sibling involvement in the decision-making processes of member organisations. This will enable and strengthen shared advocacy within the network.

GOAL 1 - GLOBAL MAPPING

Create a global map of existing sibling organisations around the world.

GOAL 2 - MEMBERSHIP SURVEY

Survey current Inclusion International members to determine sibling presence in leadership or other roles within their organisations.

GOAL 3 - SIBLING ENGAGEMENT

Build a framework on how to engage siblings at member organisations and ensure that members have sibling representation in their decision-making processes.
